

Overview

The Plexstar MC1000 is Fiber Media Converter which converts 1000Base-T UTP/STP media to 1000Base-SX/LX media and vice versa. The fiber connection can be multi-mode or single-mode connection. No configuration required.

Features :

- Offers 1 x SFP and 1xRJ45.
- Small, light weight.
- No configuration required.

Model:

- MC1000 - USA, Asia, Europe and other regions.

Specification

Interfaces:

- 1000Base-X via SFP.
- 1000Base-T via RJ45.
- Eight FE ports via RJ45.

Power:

- Power Adapter 5-12V DC, 500mA
- Indicators.
- Power LED.
- Power Consumption: 1 Watt

Physical Dimension:

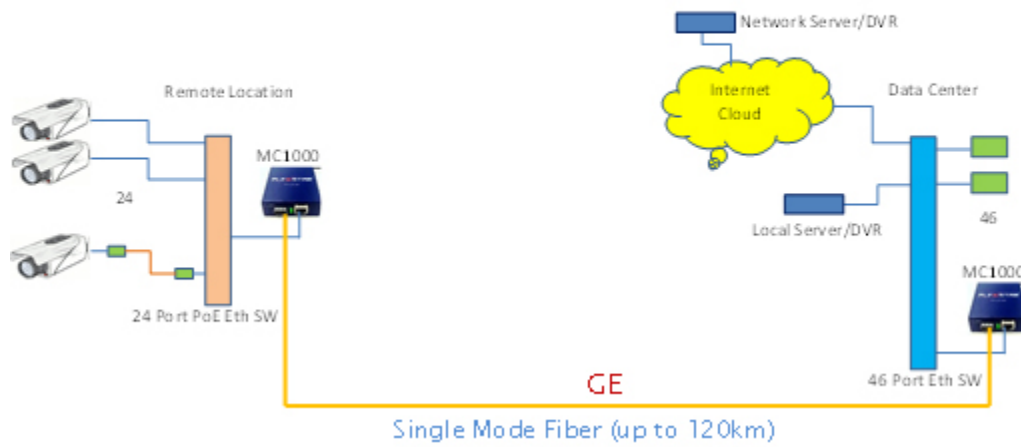

- Size: 3.5" X 2.75" X 1.0"
- Weight: >0.5 pounds
- Universal mounting provisions

Benefits

- Cost-effective GE Fiber to GE copper conversion.
- Low power consumption.
- Operating temperature 0°C to 70°C.
- Light weight.

Applications

Plexstar MC1000 Point to Point Application

Plexstar MC1000s Used in Parking Garage Surveillance
